

DVD±RW Drive with LightScribe

Design by F.A. Porsche

**18x DVD±R
USB 2.0**

LightScribe Disc Labeling

This drive is equipped with LightScribe - an innovative technology that allows you to burn silkscreen-quality labels directly onto CDs and DVDs with a laser instead of a printer. LightScribe uses a combination of your CD/DVD drive and specially coated discs to produce precise, professional labels ****. The result is an impressive iridescent image composed of art, text, or photos of your own creation.

Store 8.5GB On a Single-Sided Disc

With up to 8.5GB** of space on a single-sided, double layer DVD disc, save up to 16 hours of VHS video, 4 hours of personal, high-quality DVD video or thousands of MP3s. Large-capacity, double layer DVD media is also ideal for backing up computer systems.

Broad Compatibility

This rewritable drive can be connected to any PC or Macintosh computer with USB 2.0. Compatible with virtually all DVD players, completed DVDs can be played back to share with family and friends. Write to DVD-R/RW, DVD+R/RW, CD-R/RW and DVD±R double layer media.

Full-Featured Software Suite

Create totally customized DVDs with the bundled Easy Media Creator Suite 9 DVD/CD copying software for Windows users. An easy-to-use interface allows you to piece together DVD movies in a matter of minutes. This all-in-one bundle solution includes LightScribe labeling software. (Mac and Linux*** users can download LaCie LightScribe Labeler software from our website for free.)
