# LaCie SAFE Mobile Hard Drive with Encryption

Hi-Speed USB 2.0

## HARDWARE ENCRYPTION & FINGERPRINT ACCESS

### ● IMPENETRABLE DATA PROTECTION

With its revolutionary hardware encryption, the LaCie SAFE Mobile Hard Drive guarantees ultimate security for your highly confidential data. Files stored on the hard disk are automatically coded—without transfer rate compromise. Even if the drive is pulled out from the casing, data remains encrypted and no corruption is possible. The encryption depends on a sole key stored directly on the board; this innovative technology makes each drive unique.

### ● COMPLETE PRIVACY FOR BUSINESSES

This hard drive has been specially designed for professionals with top-secret data such as intelligence agencies, government authorities, financial institutions, and offices with highly sensitive files such as law firms. Take this portable hard drive with you on the road for business travel with the assurance that your trade secrets or private financial information are safeguarded in the event of it being lost or stolen.

### ● BIOMETRIC LOCK

Fingerprint identification security can be trusted for reliably storing and transporting your private files. Once registered, simply swipe your finger to unlock the drive. This cutting-edge technology based on a unique biological user trait is far more secure and convenient than a password or a smart card. Up to 5 different users can be registered with personal and customized access privileges such as full access to the drive or read-only.

### ● TRANSPORTABLE & EASY TO USE

Because it's "Intelligence" embedded, the LaCie SAFE Mobile Hard Drive with Encryption is plug & play. Totally user-friendly and very convenient for travel, this drive is USB bus-powered, so there is no need for an external power supply. Compatible with Windows 2000/XP and Mac OS 10.2.x or higher, this storage solution can be used on almost every computer without any concern. With its pure and compact design, it's so small that you can easily slip it into your pocket or bag.

compatible with  
**WINDOWS®**

compatible with  
**MAC OS®**

- Highly secure mobile hard drive
- Automatic file encoding
- Biometric access technology
- Hi-Speed USB 2.0 powered\*\*

## FEATURES

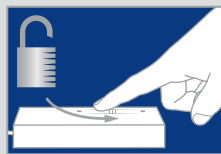

- Ultimate storage security
- Hardware encryption
- Fingerprint recognition
- Up to 5 user profiles
- Register 10 fingerprints
- USB bus-powered: no AC adapter needed\*\*
- Plug & play

## BOX CONTENTS

- Hi-Speed USB 2.0 cable
- USB power-sharing cable
- CD with PDF User's Manual
- Quick Start Guide

## SYSTEM REQUIREMENTS

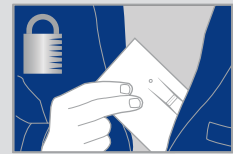

- Windows® 2000, XP, Vista™ / Mac OS 10.2.x or higher
- PC or Mac with built-in powered USB bus
- Pentium® II 350 MHz / G3 processor compatible or greater
- Minimum 128MB of RAM

## LaCie SAFE Mobile Hard Drive with Encryption

Item Number	301245
Capacity*	160GB
Interface	1 x Hi-Speed USB 2.0 port (USB 1.1 compatible)
Interface Transfer Rate	Up to 480 Mbits/s max (60 MB/s)
Rotational Speed	5400 RPM
Cache	8MB or greater
Seek Time	< 12 ms
Data Encryption	DES*** (56-bits key) or Triple-DES*** (128-bits key) Key linked to a password chosen by administrator
Max Data Transfer Rate	Up to 25-27MB/s in DES mode; Up to 20-21MB/s in Triple DES mode
User Management	Easy to use & install; Switch from computer to computer without installing any software; Different user access rights: Read/Write or Read only
Dimensions (LxWxH)	5.43 x 3.15 x 0.98 in / 138 x 80 x 25 mm
Weight	8.11 oz / 230 g
Warranty	3 years limited

\*1GB = 1,000,000,000 bytes. Total accessible capacity varies depending upon operating environment (typically 5-10% less).

\*\*For standard USB equipped computers, it's AC adapter free. An optional AC adapter is available for a non-powered USB hub or host adapter (sold separately).

\*\*\*DES (Data Encryption Standard) and Triple-DES are certified algorithms developed by the US NIST (National Institute of Standards and Technology).
